

Campus Store Solutions Overview

Robust solutions for your campus store

Operate your independent store your way. Enhance your store service and offer a more dynamic product mix with comprehensive store management tools: mobile commerce, e-commerce, course materials management solution, stock acquisition technology, and a wide array of secure POS devices.

Sherpa Inventory Management: Get clear, simple, real-time inventory management.

Operated from any web browser, all merchandise, customer accounts, and sales updates flow through Sherpa for clear, simple, real-time inventory management at single or multiple retail locations.

- Make timely decisions
- Simplify ordering
- Manage inventory efficiently

ePOS: Offer a comprehensive online shopping experience.

Design and maintain an online storefront that provides customers with a comprehensive, attractive, and user-friendly online shopping experience.

- Reduce costs with hosted services
- Sell with confidence via PCI-certified check out
- Minimize maintenance costs with content manager

Textbook Management: Acquire and sell textbooks independently and efficiently.

Acquire and sell textbooks via a comprehensive system, ensuring higher margins for your campus store.

- Leverage multiple sources
- Integrate popular industry partners
- Offer additional value

Touchscreen POS: Sell securely and authorize multiple payment types.

Provide quick and versatile point-of-sale service with real-time updates, PCI validated card processing, and multiple payment acceptance.

- Ensure customer security
- Sell all store products and services
- Support textbook and general merchandise images

iCount: Verify on-hand inventory from anywhere.

Make an Apple iPhone or iPod a low cost inventory tool with a mobile app that works anywhere using wifi or your cellular signal.

- Update inventory counts in real-time
- Post offline transactions when reconnected
- Reduce training time with common user interface

iSell: Sell remotely with a complete mobile register solution.

Ensure your bank card information is safe and never stored in your store or on campus with PCI-validated point-of-sale software (POS) customized specifically for campus stores.

- Sell almost anywhere using wifi or your cellular signal
- Make selling remotely fast & easy
- Expedited checkout
- Use convenient features

iReturn: Go mobile and make buyback and rental returns easier.

Process rental returns and buybacks in a single transaction with a mobile app that works virtually anywhere over wifi or a cellular connection.

- Process virtually anywhere
- Intelligently process book returns in a single transaction
- Complete processing on the fly

Traverse Mobile App: Engage students in-store with a mobile shopping app.

Use smartphone technology to create loyalty and revenue. Entice students to enter and engage in your store with dynamic notifications, comparison shopping, and special offers.

- Create student-store engagement
- Generate additional revenue
- Gain students' loyalty

Electronic Shelf Labels: Display real-time dynamic pricing & item details.

Shelf tags no longer have to be printed and item labels are no longer needed.

- Automate price changes to shelf labels
- Take ESLs along when inventory shifts
- Challenge online competition
